SUSTAINABILITY

Our Commitment on Environment & Performance

Sustainable Eco Product.
(Save the Environment & Save the World.)

At each stage of our production process, we always keep in mind both the environment and human safety. Whether it's choosing a material or packaging for our products, we feel that all roads must support these goals.

For this reason, our focus is producing organic & recycle garments product & we are manufacturing this type of product for our existing customers.

OUR KEY ACTIVITIES

SERVICE OFFERINGS

Negotiation, sourcing and inspection for the buyers with the help of a professional staff of Merchandisers and Quality Controllers who always keep a close check on sampling and production, making sure that all deliveries are made in time and in desired quantities.

- o Taking care of orders from inquiries to their placements and through to their executions and shipments. Keeping close check on Sampling & Bulk Production.
- o Ensuring high quality standards in sampling, manufacturing, packing and shipment.
- o Getting buyer's orders placed at competitive prices, without any compromise on quality or service.
- o Arrangement of 3rd party Inspection through recognized Inspection Agencies if required.
- o Offering to the buyers a range of reliable manufacturers and suppliers, providing them the convenience of dealing with several manufacturers from one central office.
- o Documentation Review.
- o Shipping Coordination & Follow up.
- o Handling Claims.
- o Keep updating buyers always.
- o Timely Shipment and delivery.

QUALITY POLICY

Nectar Apparel Ltd. is one of the rear companies in Bangladesh who owns a quality plan, compliant to international quality code/ standards. We believe in maintaining systems and control measures from yarn to finished products stage in accordance to the world wide to deliver perfect garments. Our quality assurance personnel stationed at all the manufacturing sites ensure that all production units are geared to run on your quality requirements, thereby eliminating the last minute rejection factor giving you value for your money.

The level of inspections is used for the 3 pre-shipment inspections are as follows:

- Initial Production Check (IPC) –Single Sampling Plan General Level I
- During Production Check (DUPRO)–Single Sampling Plan General Level I
- Final Random Inspection (FRI) – Single Sampling Plan General Level II

If a tighter inspection plan is needed by clients for special cases where stricter controls are required on the product, level III shall be applied. Level III generally means that a larger sample size will be check, and of which a smaller proportion is allowed to be defective. Level S3 is a special level used in conjunction with Levels I, II and III. Level S3 is used for field tests and performance measurements where it would not be practical to perform such tests on larger sample sizes .
